Bold Utility Vehicle "BUV"

*Electric Powered Vehicle
Specialists*

Tel: 610-913-7657

The **BUV** - Bold Utility Vehicle

The **BUV** concept of Bobby "Bullet" Backer is of an electric multi-functional vehicle that can be utilized as both a tool and a recreational device. It incorporates the most contemporary mechanical and electronic technologies to allow this vehicle to perform so efficiently that it can also be categorized "environmentally friendly".

Affordably priced - the BUV is comparable to low-end hydrostatic garden tractors. Our customer base ranges from homeowners, housewives, farmers, mechanics, hunters, carpenters, recreational enthusiasts, from teenagers to grandparents. It encompasses anyone and everyone that has a desire to have fun as well as complete a job more effectively.

Owners of a BUV find it difficult to make the distinction between a tool or a toy. Contact us to obtain the applicable price sheet.

Anyone can drive the BUV, easy to use joystick controls makes operation a breeze.
