Personnel Carrier Utility Vehicle "PC122"

Blazing Technologies, Inc.

*Hydraulic and Electric Powered
Vehicle Specialists*

Tel: 610-913-7657

The PC122 - Utility & Personnel Carrier Vehicle

The **PC122** is a 4WD hydrostatic multi-functional utility vehicle that can be utilized as a personnel carrier, flat bed utility vehicle or any other engineered application that the user would like to outfit the vehicle with. It incorporates the most contemporary hydraulic, mechanical and electronic technologies to allow this vehicle to out perform any other utility vehicle.

The PC122 has a Kubota Turbo Diesel power plant that drives tandem hydrostatic transmissions to traction sharing hydraulic drive motors. Outfitted with the 4W-Steer option, the PC122 has an unprecedented inside turning radius of 4 ft allowing the vehicle to be turned in the most dauntingly narrow passages.

The PC122 was designed with service in mind. All engine and hydraulic components are easily accessible once the cab is rolled forward. Contact us to obtain the applicable price sheet.

Anyone can drive the PC122, easy to use steering wheel and foot pedals make operation a breeze.

Features & Benefits

- Kubota 56 Hp Turbo Diesel Tier III engine
- Electronic governor control
- Plus1 programmable control system with full diagnostic capabilities
- Parker Hydraulics GPP certificate with 3 year no-leak guarantee
- Superior Quality and Workmanship
- Full time 4WD with traction sharing enables power transfer when one wheel slips
- 4W-Steer and Crab steer option
- 3000 lb payload capability
- 15 mph / 40% Gradeability
- Hydraulic power steering
- Oscillating Front Axle with coil spring and shock suspension
- Leaf spring rear axle
- GVW - 4600 lbs
- Overall Length - 170 in
- Width - 72 in
- Height - 82.5 in
- Wheel base - 84 in
- Rugged all steel construction
- Powder coat and primer coat finish
- Analog or digital gauge package
- 25x8.50-14 NHS Pneumatic tires

Attachments

- Personnel Carrier—Rear Seating for 12 passengers
- Flatbed - 54.75 sq. ft flatbed area (72 in W x 109.5 in L)
- Dump Box - 164 cubic ft. capacity (72 in W x 109.5 in L x 36 in D) hydraulically operated
- Head light option - 2 additional halogen headlights

Design & Warranty

The PC122 was designed by Blazing Technologies, Inc. utilizing leading edge engineering solutions in a manner that allows it to be consistently

Full access to the engine for service is provided by rolling the cab forward .

manufactured with unsurpassed quality and workmanship. BTI has the engineering, design, manufacturing, and industry experience to produce highly

efficient, reliable utility vehicles of superior quality and performance.

BTI's Pledge to you:

- 7 Year Structural Warranty
- 3 Year Hydraulic Hose Warranty
- 2 Year Power Train Warranty
- 1 Year Electrical Systems and component Warranty
